

Architectural ceiling surfaced

HØVIK LYS

Slim and elegant ceiling luminaires are suitable for use in combination with Zapp family or Casa downlights, table, ceiling and wall luminaires.

The Zapp 360 and the Zapp 465 can be supplied with up to 3 hours integrated battery backup. They come in white painted/brushed steel or polished brass housing.

The slim and elegant Zapp Aqua 360 has a decorative backlight and is suitable for wall and ceiling IP66. It is available with sensor and is applicable for wet public areas. The steel housing has a 3 mm thick décor made of white painted anodized marine corrosion resistant aluminum.
